Covid Trading Update England 2/11/20

Dear Customer/Supplier,

Please see below the Lynx Crendon update and response to the announcement by the Government that they are planning a "Lockdown" across England from November 4th 2020.

We have fully reviewed all of the latest Covid guidance and advice and continue to implement it fully to assist to keep all of our staff, customers and suppliers safe.

As Manufacturing and Construction are classed as "Essential Work" our business and trading based in England will **remain open** during the above "Lockdown" period, as our business also has in Wales during their current "Firebreak Lockdown" with trading as normal whilst adhering to all of our secure Covid procedures.

We are aiming to continue to achieve our usual **high service levels** however we would ask all customers to try to give us additional notice for new call offs to assist us to schedule our manufacturing programme.

Kind Regards

2/11/20

Stephen Thompstone, CEO
